SOCIALISTS PLAN DEBS' CAMPAIGN

LEADERS WILL VISIT DEBS EVERY MONTH AT PRISON AND DISTRIBUTE HIS MESSAGE

By the Associated Press

CHICAGO, Ill., July 8.—"A 2-front cell" campaign is planned by the socialist party for Eugene V. Debs, its presidential nominee, according to William M. Figenbaum, director of publicity for the national campaign. Mr. Figenbaum said today the party intends to send some prominent socialist to Debs' prison at Atlanta every month. What Debs has to say will then be distributed by the campaign committee.

The usual touring will be taken care of by Seymour Stedman of Chicago, the vice-presidential nominee. He is to start the middle of this month for Texas and Oklahoma, finishing this trip the latter part of August, and on the first of September plans to begin a transcontinental tour ending in Chicago two months later.

The organization of the socialist campaign will be taken up by the party's national executive committee next Saturday at Detroit, Mr. Figenbaum said.

As usual the socialists plan to make a large use of pamphlets in their campaign. Mr. Figenbaum said the party has distributed 27,000,000 in 1916 and hoped to get out 50,000,000 this year.

Two of the expelled New York assemblymen, he said, are now out speaking for the national office in the campaign. Louis Waldman and August Classens are the men so engaged. The campaign publicity chief said that 12 speakers in all were now out campaigning.

One of the chief party organs in the campaign will be "The New Day," official socialist party publication at party headquarters. "The New Day" is a new name for the party organ, chosen several weeks ago in place of "The Eye Opener" which served as the party paper after "The American Socialist" discontinued during the war.

The socialists are having trouble in getting on the electoral ticket in several states. Mr. Figenbaum reported. He said that owing to the "in Michigan" and "in California" not get on in that state.

Socialist strength, he added, now appears greatest in Oklahoma, Wisconsin, New York, Massachusetts, Illinois, Missouri, Texas, California and Idaho.

THIS WOMAN BACKS UP ON SUFFRAGE STAND

By the Associated Press

KNOXVILLE, Tenn., July 8.—Miss Anna Mock, of Los Angeles, formerly an equal suffrage leader, in a letter to W. Anderson, representative in the lower house of the Tennessee legislature, urges him not to support ratification of the suffrage amendment. Suffrage, she says, coarsens and cheapens women. She expresses her regret at her former activities in its behalf, saying that since suffrage has been granted, there has been an alarming increase in immorality, divorce and murder in California.

The letter says: "I was one of the prominent workers who helped bring suffrage to California, and I regret it. A year in politics has taught me that women are intolerant, radical and revolutionary, and more corrupt in politics than men. Also all this so called reform leads to the socialist cooperative commonwealth."

"Since suffrage there has been an alarming increase in immorality, divorce and murder in California."

"Woman suffrage, has made cowards and puppets of men; it has coarsened and cheapened women. I shall do penance forever for the part I played in bringing suffrage to California."

"To the south woman suffrage would bring more than calamity."

"Please urge your colleagues not to do what will bring regret."

Some Spuds, These.
A News reporter was shown a collection of Irish potatoes the other day that ought to take the blue ribbon in most any show. They were raised by D. E. Price, Jr., and were almost perfect in shape. Nine potatoes were taken from two hills, and the nine spuds weighed seven pounds. Who said this wasn't the original potato country?

Strong For T. O.
"How are you boys in Darktown going to vote in the senatorial race?" a News reporter asked a negro yesterday evening.

"Well, suh," responded the colored man, "some of em are gon' to vote for Kit Guest but most of 'em is strong for T. O. Cullins."

FIVE GENERALS TAKE UP ARMS AGAINST MEXICO

By the Associated Press

MEXICO CITY, July 9.—Five generals have taken up arms against the new Mexican government, provisional president Adolfo de Heuerta told foreign correspondents last night. He declared that they did not constitute a military menace, since they had such a very few followers. He estimated that not more than 500 men had been involved in recent outbreaks.

The Carranza government, said Adolfo de Heuerta, stood for more than four years against over 25,000 rebels and there is no reason why the present government can not contend with less than 500.

Weed Proclamation

Whereas, it is essential to the good health and cleanliness of our city to cut the growing weeds in the streets and alleys and upon our premises and, at intervals, to have a general clean up throughout the city, removing all rubbish, tin cans and such other accumulations as are unsightly and detrimental to health, and

Whereas, in co-operation with the Auxiliary of the Chamber of Commerce it is deemed necessary at this time to begin a campaign against the weeds and to have a thorough clean up of the city.

Now, therefore, I Gary Kitchens, Mayor of the city of Ada, do hereby designate the 13th day of July 1920, as clean up day, and call upon all the citizens of the city to cut the weeds about your premises and collect all tin cans and other rubbish accumulated thereon and place the same in a barrel, sack, box or other receptacle so the same can be handled and more easily removed by the drivers of the trash wagon, who will visit your premises for the purpose of carrying away the same. Such trash as can be burned should be burned upon the premises, and that which cannot will be hauled off by the men driving the wagons. I trust that upon the above mentioned date we will have the hearty co-operation of all concerned to the end that we may have a clean, healthy and beautiful city in which to live.

This the 8th day of July, 1920.
GARY KITCHENS,
Mayor

IMPORTANT!
There will be a meeting of the Oklahoma Tuberculosis Association in the parlors of the Harris Hotel, this evening at eight o'clock. The various officers and committees are expected to attend. Dr. Theodore Kellogg, Industrial Health Secretary, will be in town and will address the meeting.

Mrs. Mattie Brown
Chairman

The west side of the A. K. Thornton building, occupied by the M. & P. bank, looks greatly improved today as a result of a new dress of awnings over all the windows.

COMMERCE NOT TO INCREASE IN SOVIET RUSSIA

By the Associated Press

WASHINGTON, July 8.—Decreasing reduction and impaired credit in Soviet Russia will, officials believe, make impossible any material increase in commerce, not withstanding removal by the state department of restrictions on trade. The department's action was taken independently but followed extensive exchange between the United States, Great Britain and France.

The announcement of relaxation explained that the restriction on trade in materials that might be used for war purposes are still in effect and that the department's actions are not to be construed as any political recognition of any Russian authority.

Individual export license will be required and these will be granted only in exceptional cases. The shipment will be made at the owner's risk.

ESCAPED NEGRO CONVICT SHOT BY WHITE MAN

By the Associated Press

CENTERVILLE, Mo., July 8.—Fred Cannafex, an escaped negro convict, was shot to death by a mob of white men near here late yesterday. Cannafex is alleged to have assaulted a daughter of Frank Simmons, a farmer residing near Ellington, Tuesday night.

R. A. M.
There will be a called convocation of Ada Chapter No. 26, R. A. M., this evening at 7:30 o'clock sharp, for work in the M. E. and R. A. degrees. All Royal Arch Masons cordially invited to be present.—F. C. Sims, Secretary.

Where Did the Bible Come From?

This important question will be answered next Sunday evening at the Christian church when C. V. Dunn, the minister, will preach on the theme, "The Making of the Bible." In this sermon he will tell who wrote the Bible, the circumstances under which it was written, why it was written, the languages in which it was written, when and why the different parts were brought together and made into a book. He will tell of the origin of writing, and how people wrote in Bible times. Charts and maps will be used to illustrate the most important things. There will be other interesting questions discussed besides those indicated above. The public is cordially invited to hear this message. A large audience is expected.

The west side of the A. K. Thornton building, occupied by the M. & P. bank, looks greatly improved today as a result of a new dress of awnings over all the windows.

R. O. Lawrence has recently moved into his new home on 512 South Townsend.

OLD ORATORY AND THE NEW

NOMINATING SPEECHES OF TWO
LAST CONVENTIONS COMPARED
TO THAT OF OTHER
DAYS

By the Associated Press

CHICAGO, July 8.—The nomination oratory which marks the two great political conventions this year is in sharp contrast to the nominating speeches of the early days of the parties. This has been brought out afresh by inquiry at the Chicago Historical society and the Newberry library here.

In the first great republican convention Abraham Lincoln was nominated for the first time, by Mr. Judd of Illinois, in these words: "I desire on behalf of the delegation from Illinois to put in nomination as a candidate for President of the United States Abraham Lincoln of Illinois."

The first national nominating convention of the democratic party was held 28 years earlier, in Baltimore, May 21-23, 1832. It was at this gathering that Andrew Jackson was endorsed for his second term. Jackson had been nominated previously in a number of states by the methods which were then passing away and according to the Newberry library it is doubtful if there was any speech at all placing him in nomination at the first democratic national convention. The business of this convention was principally to nominate for the vice-presidency.

The convention adopted a resolution concurring in Jackson's "repeated nominations." The resolution was drawn in 60 words.

Previous to that time from 1800 to 1801 nominations for the presidency and vice-presidency, the well-known reference library says, were by congressional nominating caucus, consisting of party members of both houses of congress. The last congressional caucus was held in 1824, Jackson opposing the "King Caucus" as it was termed, as undemocratic. In 1828 he was nominated by state legislative caucuses and conventions held in various states. Following this, popular state conventions grew up and out of them came the national conventions.

Pavement Pickups

All seniors and Phi Betas are requested to be at the normal at 6 o'clock. Big time and the "eats." Watermelons too.

Quite a number of small boys got some of their first experience with electricity yesterday on the electrical wall between Mrs. Land's place and the undertaking establishment.

Burden & Crandall have established an agency in this city for the Oldsmobile cars and trucks. They have several cars in stock at present and Harry Burden of this firm is in Oklahoma City today and will purchase an Olds truck.

Next Sunday Ada will play Tupelo. The game is to be called at 3:30 and a good game is expected. Tupelo has a good team and the local club is receiving some reinforcements preparatory to meeting them on this date.

A good rain fell over this section this morning which makes good crops an assured fact. It cannot be learned as to whether the wind did any damage to the corn, but the supposition is that very little loss was sustained by heavy winds which came with the rain.

"Winsome Womanhood" will be the subject of an address that will be given at the Methodist church Sunday night by Rev. R. C. Taylor. The talk is given by a special request from normal students and others who are interested. Special musical numbers will be rendered by the young ladies' octette.

W. N. Williams and son, Sterling, of New York, are visiting the family of Mr. and Mrs. F. T. Williams.

The Western Bloomer girls were defeated yesterday at Tupelo by a score of 9 to 1. The team arrived in this city this morning at 4:45 and were scheduled to play the American Legion team. The rain of this forenoon made it impossible for the game to be played this afternoon.

BETTERTON IS EXECUTED TODAY

VINITA MAN WHO WAS CONVICTED OF WIFE MURDER,
WENT TO ELECTRIC
CHAIR CALMLY.

By the Associated Press

MCALISTER, July 9.—As the clock in the hall of the penitentiary pointed to ten minutes after midnight, Monrie Betterton slowly walked from the death cell to the death chamber still protesting his innocence of the crime for which he was sentenced to die. Without making a statement he sat down in the electric chair and looked straight ahead while the prison officers placed the cap over his head and he went to his death.

When the prisoner was brought into the chamber of death, Warden Charles Switzer asked: "Have you anything to say before you die?"

"No, sir," was the scarcely audible reply of Betterton. Chaplain J. E. Rogers then read a passage of Scripture from the 12th chapter of Luke.

At the close of the reading the chaplain offered a prayer, at the close of which Betterton said, "Thank God."

At ten minutes of midnight he told a reporter, that "I am not guilty of the crime with which I am charged. I am ready to die. I am ready to meet my God. I do not fear death, but I do not want to die for a crime which I did not commit."

THE SALVATION ARMY WORK IS RE-ORGANIZED

By the Associated Press

CHICAGO, July 9.—Announcement was made at the headquarters of the Salvation Army here that more than 6,000 citizens "representing the most active elements in the social and economic life of the states west of the Mississippi," have been enlisted to aid the army in arresting vice and helping the poor and unfortunate. The statement says in explanation of the new organization:

"This work is to be conducted through the medium of county advisory board. By the first of October, there will be a board in every county, and 12,000 leading citizens will thus be banded together in an effort to assist the crushed and fallen."

"County advisory boards, supplemented by the trained personnel of the Army and its chain of institutions, are strenuously attempting to solve the social problems of their home communities."

"Briefly, the advisory boards constitute a live and active lay organization and through this constituency the Salvation Army aims to extend its facilities to every obscure corner of the western states. Although a part of the Salvation Army's Home Service program in 1920, the work is of a permanent character and designed to broaden the scope of the army's labors without invading any new activities or encroaching on other organizations."

"County advisory boards will be linked together by a state advisory board. Activities will be centralized and efforts unified through this system. The constructive program of Americanization which is interwoven in all the Salvation Army's operations, will be carried, together with better facilities for temporal aid and spiritual encouragement to each community west of Chicago."

"Advisory boards will be authorized representatives of the Salvation Army, and will be expected to advise with officers over the amount of the need for any or all of the organization's sixteen major activities in each county. They will bring to the attention of the army all cases that come within the scope of its activities."

"In the aggregate, they will constitute an elaborate and powerful union, equally distributed throughout 24 states and composed of responsible men and women devoted to the promotion of American ideals and the betterment of mankind."

Poultry Experts Here

Charles M. Smith of the Poultry Extension Department of the A. & M. College, Stillwater, and his assistant, E. O. Edson are in the city, and on Wednesday and Thursday and today were at the Normal lecturing and demonstrating the work of that department to Mr. Pratt's agricultural class.

BOLSHEVIK TROOPS ARE STILL MAKING PROGRESS

By the Associated Press

WARSAW, July 8.—Bolshevik troops have succeeded in crossing the Beresina in strong force near Novosilki southeast of Borisov. It was announced in today's Polish official communique.

INFLAMED EGOTISM.

No one would condemn the little tingle of pride that creeps over a man when he has accomplished something of merit. It is natural and, with the real man, it is only a feeling of exhilaration. He keeps his head.

Some people, however, seem to get "off side" every time some little success comes their way. Their heads become overbalanced.

There are other people, it seems, whose breathing organs continually feast on the thin air that wafts in breezes among the celebrated, supercilious elect. Their egotism seems inflamed and never healing. Too bad, indeed, that they were not born in the days of the famous Louis XIV to have been his assistants in wielding the sceptre of "divine right" over the heads of the common herd.—O.V.M.

CROPS BIGGER AND MUCH BETTER

JULY FORECAST FROM WASHINGTON JUST OUT WILL
PROVE TO BE MOST
ENCOURAGING.

WASHINGTON, July 9.—An increase of 28 million bushels in the country's wheat crop, as compared with last month, with a total forecast of 809 million bushels; a prospective corn crop larger than last year and larger crops of oats, barley, white potatoes, tobacco, flax and rice than were grown a year ago, were the features of the government July crop report, issued today by the department of agriculture.

The forecasts of production are: Winter wheat 518 million bushels, barley 193 million, rye 82 million. Conditions of crops on July 1st was: Winter wheat 79.7 per cent of normal; spring wheat 88 per cent; all wheat 82.5; corn 84.6; oats 84.7; barley 87.6; rye 86.5; rice 90; tobacco 84.3; hay 85.5.

THE FIRST DEMOCRAT CONFERENCE AT DAYTON

By the Associated Press

DAYTON, Ohio, July 9.—The first important conference, to arrange democratic party campaign plans, will be held here Tuesday, July 20th, according to a telegram received by Governor Cox, the presidential candidate, from Homer S. Cummings, chairman of the national committee, today.

Greek doors were inclined inwards at the top.

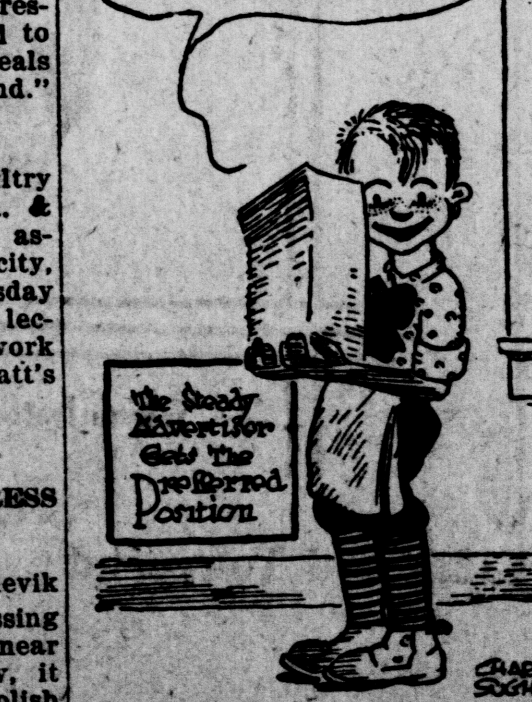

Another Divorce Case

Mrs. Birdie Jackson has filed suit in district court for divorce from her husband S. M. Jackson. She is represented by King & Crawford as attorneys.

Plaintiff states in her petition that she married defendant in November, 1903, and that three children have been born of the marriage. That her husband has treated her in a cruel manner and has failed to provide for her as he should. Wherefore she asks that she be granted a divorce from the defendant.

MICKIE SAYS:

VEGGIE, WE LIKE TH' BIG ADS AND ARE GLAD TO GET THEM BUT BETWEEN TH' QUARTER-PAGE ONCE IN A WHILE AND TH' LIL AD RIGHT ALONG, GIMME TH' GOOD WHOLE ON TH' JOB WEEK IN AN' WEEK OUT, FER HEB THE BOY YOUNG GONNA CARRY TH' BIG OVER-STUFFED POCKETBOOK! JUST LIKE THAT LIL RACE THAT TH' RABBIT 'N TH' MUDTURTLE PULLED OFF!

GERMANY HAS SIGNED PACT

TERMS OF THE ALLIES WITH
REFERENCE TO DISARMAMENT
AGREED TO
RELUCTANTLY.

By the Associated Press

SPA, Belgium, July 9.—German delegates signed, at 11:45 o'clock this morning, an engagement accepting the terms of the allied note relative to disarmament presented yesterday. This action was taken under protest by the German representatives.

The allied note, which amounted virtually to an ultimatum, demanded that the Germans accept the terms presented at noon today and stipulated that in the event of the Germans failing to carry out the provisions of the demand, allied forces would occupy parts of the German empire.

The Germans protested, in signing the engagement, that the treaty of Versailles did not oblige them to acquiesce in further territorial occupations, except for failure to fulfill the treaty terms regarding reparation.

The decision of the German government to obey the allied demand was reached at an early morning session today, the vote being unanimous. The vote was taken after a telephonic communication with the Reichstag leaders in Berlin approving the acceptance and communicating the desire of their Reichstag and party leaders and the cabinet at Spa to use its own judgment.

MR. HARDING'S EXPERIENCE IN BOONE, IOWA

By the Associated Press

BOONE, Iowa, July 9.—The nomination of Warren G. Harding for president has recalled that he at one time helped to publish one issue of the Boone News-Republican when he was lieutenant governor of Ohio.

Senator Harding was scheduled to make a speech in Boone, and while waiting for the hour he went to the newspaper office and said to the city editor, "My name's Harding." He explained he owned a newspaper and enjoyed being around the office. He was asked if he had a copy of his speech and when he said he did not have, it was suggested that he could use a typewriter and make an abstract. Senator Harding did. He then asked "Is there anything else I can do?"

A handful of proofs was shoved to him and the presidential nominee read and corrected them. He remained in the office the greater part of his stay in Boone, and when he left with a copy of the paper he helped publish, remarked, "See you again, maybe."

GREATER BOSTON CENSUS SHOWS TO BE 1,500,000

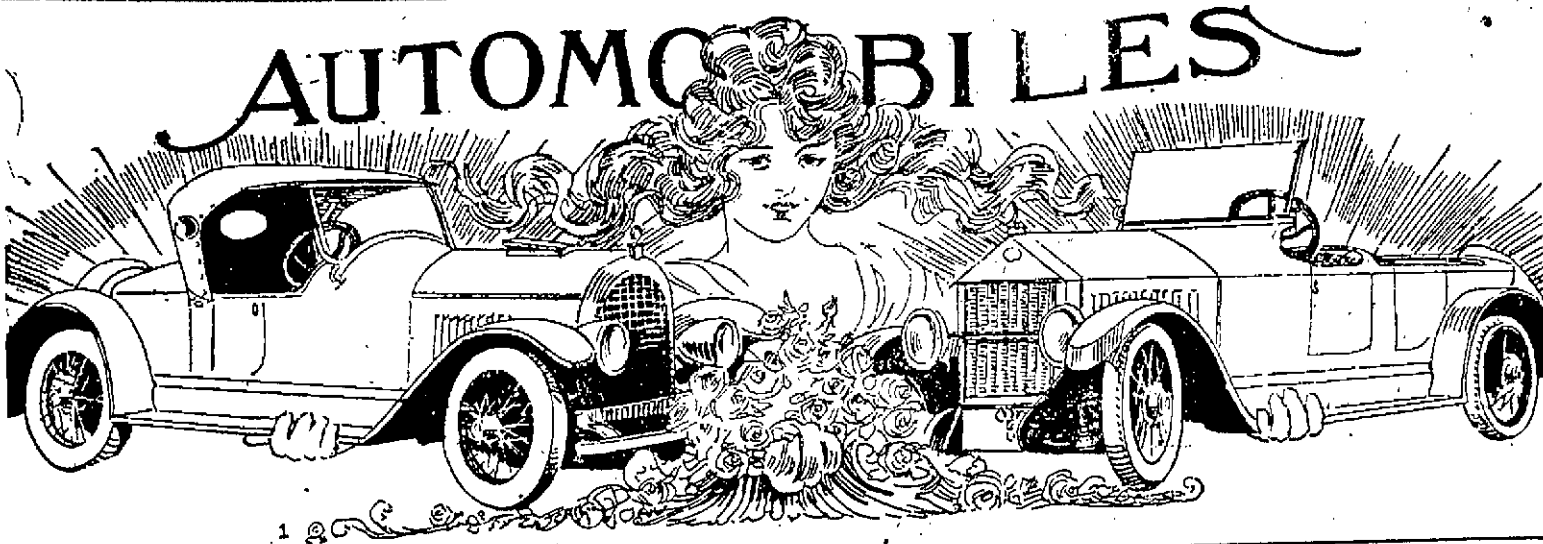

By the Associated Press

BOSTON, July 9.—A compilation of 1920 census returns covering what is generally known as Greater Boston shows that the population of Boston and its suburbs has now reached almost exactly 1,500,000. Unlike most of the larger cities of the country, Boston has annexed very little of the territory immediately adjoining and has a total area of only 47.8 square miles, as compared with 287 square miles in Greater New York.

The Boston metropolitan district, covering an area within a 15 mile radius from the state house, includes 26 cities and towns in addition to Boston proper. The 1920 population of all of these except Watertown has been announced and the total is 732,541 for the suburbs. Watertown's population as recorded by the state census of 1915 was 16,515, a gain of 3,640 over 1910. If it made a similar gain in the last five years it would now have 20,155 inhabitants. This, added to the other suburbs and to the 747,923 population of Boston, would make a total of 1,500,619.

The percentage of growth of most of the suburbs has been much greater in the last decade than that of Boston itself, due chiefly to the fact that a far larger number of people whose daily business is in this city have found it more agreeable to establish their homes outside the city limits. The great majority of the suburban population is made up of people whose work or business is in Boston. The city of Lynn, with a population of 99,148, is within the 15-mile limit, but is largely self-supporting through its shoe manufacturing and other industries and is not included in the compilation given above.

The tannin in the rind of pomegranates is used in the manufacture of morocco leather.

FORD MOVIE PLANT IS A BIG INDUSTRY

ONE LATE FILM PICTURES LIFE OF HENRY FORD AND THE WORK.

While the production of motion pictures by the Ford Motor company is only a side line, yet the studio and laboratory which produce the "Ford Educational Weekly" are among the country's finest and most completely equipped. Everything needed to convert raw film into finished pictures by expert motion picture men may be found there.

From this effectively organized picture-producing plant one hundred fifty some odd thousand feet of film weekly starts its long journey thru the theaters of America, Mexico, Brazil, Chile, Argentina, South Africa, Spain, France, Russia, Scandinavia, Japan, China and Alaska. Each week ten million people see the "Ford Educational Weekly."

It is shown in seven thousand—nearly half—the moving picture theaters in the United States; and has gained for the Ford Motor company the distinction of having the largest circulation of motion pictures in the world.

A staff of camera men are employed continuously to provide pictures for the laboratory.

One of the most recent films portrays scenes from Henry Ford's life. It shows something of his early life on the farm where he tinkered with machinery when his other work permitted, gives one a glimpse of his early mechanical genius, shows him at work on the first car, and later shows all of the Ford industries in Detroit. The last scene, taken last fall, pictures Mr. and Mrs. Ford riding on their farm near Dearborn, Mich., in the first Ford car, which, incidentally, is still in very good running condition.

Reluctance
"I understand that you have a new motor car."
"Yes."
"Do you drive it yourself?"
"Nobody drives it. We coax it."

Supply and Demand
Motorist—Can you change a \$20 bill?
Judge—No, but I can change the fine. Twenty dollars.

Sun Glare Glasses.
Many a sick headache has been caused by the glare of sun on glistering white snow or sand.
Amber-tint glasses are frequently worn either alone, or over regular glasses, to protect the eyes from sun glare.
A much cheaper, but withal practical and serviceable, protector against sun glare on snow or sand either for that matter, is made of

Backward Pupils
You are anxious to give your child every advantage at school, but how about his eyes? Perhaps he is going to be handicapped for lack of glasses.
No boy can do well in school who cannot see distinctly. A case of that kind came under our observation last year.
Teacher said he was stupid and dull—he did not do well at his lessons. We examined his eyes and found he couldn't see the writing on the blackboard. Glasses changed everything—soon he was leading his class.
Most backward children have poor eyesight. How about your child?

COON
Jeweler and Optometrist
Ada, Okla.
Make our store your headquarters while in Ada.

transparent amber tint sheeting—that the same material that is used for auto window lights. The right quality of this material is practically as clear as glass. It is fitted into "shell" or metal frames the same as glass.
Of course it cannot be made to magnify, nor correct short or long sight or astigmatism, but is valuable only as a glare protector. For that purpose it is equally as effective as colored glass.

Outside Bench and Vice
A bench and vice outside the garage door save many steps over the method of running (often) several hundred feet into the shop at the rear for a few minute's work. The owner of a chain of garages in this section has such equipment in front of each place. He finds that there are numerous little jobs of "running repairs" that can be done in a few minutes when he has a work bench near at hand; I have watched the workings of the scheme on busy Sundays and it certainly is worth while.

Tourists do not care to run inside into a grimy shop for a small adjustment—neither does the management want the floor crowded with jitney jobs to the disadvantage of other and more profitable work. What is more to the point, the outside station saves the time of the trouble man, who is of necessity a skilled man, a type none too plentiful in these days. And it will be found that the arrangement results in no more delay and congestion on the street than the customary stopping alongside to talk it over, running in the garage, and backing out again.

Generous.
"Don, did you give Bessie the best part of that apple, as you were told?"
"Yes, I gave her the seeds. She can plant them and have the whole orchard."

Using cold water circulated by an electric motor, a machine has been invented that blanches 35 pounds of peanuts every 15 or 20 minutes.

Tire Hints

Mr. F. A. Ford of the Ford Garage and Machine Shop says that washing tires and washing a car are two different propositions. Water alone should be used to wash tires and as little of it as necessary. After every run the tires should be wiped clean with a damp sponge or well-wringing cloth.

A common method when washing a car is to mix kerosene with the water. This may be advisable when washing the wood work, to remove mud and dust from the varnish, but no kerosene should be permitted to reach the tires, because kerosene reaches rubber. This fact can be readily proven by immersing a small piece of rubber in kerosene and allowing it to soak. The rubber will soon swell and lose its elasticity. The reason for this is apparent. Kerosene is rich in fatty properties which remain after the evaporation of the gases. Every time a tire is washed with a kerosene mixture the rubber is deprived of more of its strength.

When washing tires it is best to use a damp sponge and clean water, care being taken that the sponge is not soaked and dripping. After washing the tires they should be wiped dry with a cloth or a handful of waste.

Cleaning a Filter.
When washing out a filter, such as an oil filter, care should be taken to pass the gasoline or other washing fluid through the wire

gauze in the direction opposite to the normal flow of oil through the filter. The reason for this is that if gasoline is passed through in the same direction as the oil it will probably leave particles of fluff or other substances that might have been caught, sticking just where they were, while washing in the opposite direction would dislodge them.

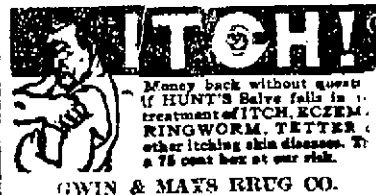

PRIORITY OF SERVICE TO RELIEVE CONGESTION

By the Associated Press
WASHINGTON, July 8.—Priority of service in favor of the more essential commodities is necessary to relieve the present transportation congestion on the railroads, Daniel Willard, chairman of the advisory committee of the Association of Railroad Executives, declared today before the interstate commerce commission.

When You Have A Complaint

Please telephone us direct. Don't make complaints to any one else, until we know them. Then you won't have to make them again. When you use our ice, you are entitled to good service, full weight, and courteous treatment, and you certainly must have them, and if you don't get them,

PROTECTING THE OPEN CAR FROM SUDDEN RAIN

Many motorists prefer to keep their car tops down in summer. Summer is the season of sudden rain storms. How often do we see an open car parked beside the curb, the owner in his office, or a store, or house, the seats so deluged by a sudden rainfall as to make it impossible to use it except at the expense of wet clothing.

Here and there a man has solved the problem in a simple way. A blanket is made of top material—either pyroxylin coated or rubberized. It need not be as heavy material as the top. Making it consists merely of cutting the goods to desired size and hemming the edges. It can be folded and tucked out of the way when not in use. Goods are obtainable from top makers, trimmers and some department stores.

The motorist spreads the blanket over his car, while leaving it to enter a building, if there appears to be danger of rain. This saves the time and bother of putting up the top.

Motorists who have these blankets claim they are a great convenience, and doubtless if sufficient demand develops for them, they will be made up by manufacturers and sold by auto accessory dealers.

Material for Electrical Contacts
From Norman Isachsen, Idaho.—Kindly let me know what is considered the most satisfactory material for making electrical contacts, such as distributors or timers. I know that carbon and copper are used for this purpose where everything can be kept clean, but I do not know just what the effect would be if dirty oil should get on such surfaces.

Reply.—Copper, being a softer metal, wears much faster if the contact is to be heavy, although if the parts are lubricated, copper conveys the current through the lubrication slightly better than bronze. As a general rule, were it possible carbon brushes are used in conjunction with copper contacts. However, carbons should be used only where high tension current is used. Carbon offers a great deal of resistance to the passage of low tension current.

For breaker points only tungsten or kindred non-oxidizing metals can be used. For ordinary roller timers, steel rolls should be used mounted on hardened steel pens. The contacts may be made either from steel or bronze. Bronze of course is best. An aluminum bronze seems to give slightly better results than straight bronze metal, if the parts are large.

Missing at High Speeds

From Martin Diller, South Dakota.—One of my neighbors has an Oldsmobile eight (1918) which is giving considerable trouble. At a speed of over thirty miles an hour it misses irregularly, never hitting on more than six out of the eight cylinders in a cycle.

Some experts have worked on this problem but cannot give the cause of this trouble. The valves are in good shape and the cylinders have new rings and are not scored. Can you tell the trouble?

Reply.—There are two possible reasons for this trouble, first ignition and second carburetion, and it will be a very easy matter for you to look into the trouble, first ignition and second carburetion, and it is due to the fact that the breaker arm does not hit against the contact point quickly enough. This may be caused by a weak spring or a flexible breaker arm. By a flexible

arm we mean one that is for some reason or other softened in use and become springy itself.

We should advise you to see that the contact points are clean and flat, as well as properly adjusted. Then install a new spring in the breaker box.

Second, it is possible that the distributor brush contact has been lost or that the spring beneath it is weakened.

There is a third possibility, that one of the ignition wires is broken inside the covering and that the vibration of the car make and breaks this contact regularly.

In the carburetor line there is a possibility that the needle valve is dirty or possibly a drop of water is lodged in it. The effect of such a water lock would be to cause an intermittent skip. The drop of water would be drawn into the needle valve and the gasoline would be cut off. A slight jar would cause this drop of water to fall back into the bottom of the carburetor where it would stay for a few seconds until drawn into the valve again. Remove the carburetor, as well as the intake manifold and clean both units thoroughly.

Trouble with Battery

From Ben Bailey, Pennsylvania.—My storage battery will not light the bulbs, blow the horn or turn the starter over; but I have a spark at the plugs when not under compression. The battery is a Willard, from Chevrolet, model FH5. I can put a six-volt lamp across two of the cells it will light brighter than if I put it across the three cells. Can you tell me what is the matter?

Reply.—It is very evident that your trouble is due to oxidized connecting straps in the battery or to a damaged cell. No matter which of these troubles it is, you do not have the proper equipment to make the repair and it is best for you to take it to a Willard service station, because they can fix it with no trouble and their repair will be all right, where as if you try to make the repair, you may damage the balance of the battery and have to buy a new one.

Hard to Keep Battery Charged

From E. B. Council, North Carolina.—My Maxwell car does not keep

the battery sufficiently charged. Generator seems to be all right, springs on brushes have sufficient tension, but the ammeter shows that the charging rate drops off as the motor is sped up, though it will charge at from eight to ten amperes when idling.

Would dirty armature cause this, and would cleaning or cutting down the mica help me?

Reply.—Very evidently there is a leakage of oil past the pistons in the Fordson tractor. This is probably caused by the kerosene fuel which you are using and which is not entirely consumed.

We should advise you first of all, to apply some sort of a water vaporizing device. If this does not remedy matters we should advise you to try a heavier grade of oil.

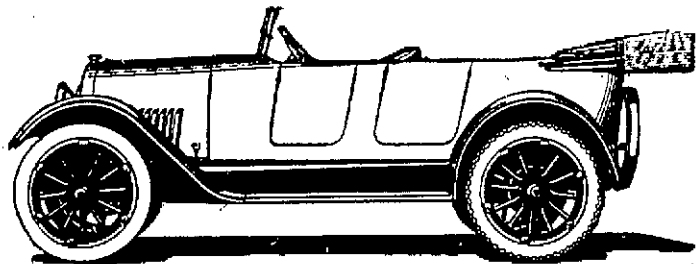

If the commutator on your generator is dirty, or if the mica projects above the copper segments or if particles of the copper segments have been carried into the mica, the charging rate will be lowered. In such cases the mica should be cut below the surface of the copper about the thickness of a visiting card, or possibly even less than that. The main idea is to cut away just as little mica as possible and yet

have the surface slightly below that of the copper segment.

We cannot tell you much more about your Maxwell car because you do not specify the year of the system used. In the past two or three years the Maxwell cars have been fitted with a great number of different systems, using six or twelve volt batteries. The series which have used twelve volt batteries in some cases have used the twelve volts for starting, but only six volts for lighting. In the latter case the battery has three lead wires and within the past year or so we have had a great number of complaints from this system that the generator did not keep the battery charged. In this particular instance a portion of the lighting system derives current from the other side. The drain on the battery is not equalized and one side runs down faster than the other. This means that the whole battery is weakened.

If you will advise us still further after you have made the repair suggested, we will be glad to give you further instructions.

A new compound, practically an oxy-chloride of lime, decreases the time required for hardening cement and improves its quality.

The Product of Experience

There is always the charm of discovery about the Chevrolet "FB 50" Touring Car.

It is in the unexpected test that you find out its real strength.

Each long hill renews your satisfaction in its power, and on each new run its riding comfort is revealed in many ways.

Chevrolet convenience and completeness of equipment become more and more indispensable in every day use.

But the most gratifying revelation comes when you divide its total up-keep cost by the number of miles run.

WIFE MURDERER TO ELECTRIC CHAIR AT McALESTER

By the Associated Press

McALESTER, July 8. — Monroe Betterson, who is doomed to die in the electric chair at the state penitentiary at 12:10 tonight for the murder of his wife, exactly one year ago, July 8th, at Vinita, will go to his death still protesting his innocence of the crime for which he has been called upon to pay with his life.

At noon today he issued a written statement for the press in which he repeatedly declared his innocence. He prays constantly to Warden Fred C. Switzer and Assistant Warden Garrett and others with whom he declared that he knew his soul was saved. His last words were "goodbye and bless you all."

Eveready Battery

What does it mean — 1 year and a half satisfactory service you get. No red tape, you're the judge.

Mr. Gale in charge of the Battery Department is an expert and does nothing but battery work. Any make of batteries.

See him and be pleased.

"TWENTY VOTES FOR OWEN"

Of all the states in the union Mississippi is today closest to the Democratic nominee for president. And of all the states in the union none is farther from the nominee than Oklahoma. For forty four long and heated ballots the 20 delegates from Mississippi stood behind the Ohio Governor. Not even on the last convention roll call did the twenty delegates from Oklahoma cast a single vote for the man who now leads the Democratic party.

It is not the fault of the Oklahoma delegation that they missed the band wagon entirely when it was passing and fell far afield when the band wagon had passed. The delegation was composed of splendid citizens. Many of them are master politicians. But they were tied and gagged by the most inexcusable instructions ever given a delegation in a national convention. Not only were they instructed to vote for Senator Owen as long as his name should be before the convention; even after his name was withdrawn they could not leave him unless by unanimous consent.

Thus the delegates from the "Land of the Mistletoe" sat for forty four ballots by the side of the road and saw the long procession go by. They had neither tickets nor conveyance, and could not even purchase peanuts from the news butch. There was a convention but Oklahoma was not present and took no part in the deliberations. For all the good they did they might just as well have been at home. For all the results achieved they might just as well have been voting for Azimoolah Khan. They traveled half across a continent to see delegates from the other states nominate the ticket. They they traveled back home.

Even at the best the favorite son scheme is the game of children in the market place. At its worst it means the disfranchisement of a state. A federal statute forbidding the participation of Oklahoma democrats in the San Francisco convention would not have more completely disfranchised them than the shackles placed about our delegates by the Muskogee convention. Such folly should be guarded against forever in the future. We have had enough such tactics for the next hundred years.

TAKING WHAT IS LEFT

That hardly a single one-room school in Pontotoc county has yet secured a teacher for next year and that practically every school of more than one room has already secured its teachers is the significant report of the county superintendent. That situation means several things, the most suggestive being that when the larger schools have picked over the available supply of teachers and employed the best ones, the little one-room schools will have to take what is left. The only teachers available for the one-room districts will be those who have failed in their past experience or who are just beginning to teach.

Thus a second handicap is thrust on the weakest schools of the county. Besides a crowded condition and a lack of sufficient teachers they will have to struggle along with the least experienced or least successful teachers. Most of them have a shorter term than the larger schools of the county. When the unfavorable conditions under which they now struggle is aggravated by incapable teachers their future becomes even darker than it is today.

There are three essentials for every school in our county. These three are longer terms, adequate equipment and capable teachers. No school can possibly give the best results without all three of these essentials. And all three can be had without overmuch trouble. The consolidated school or the union graded school will answer the demands of every district and soon make the schools of this county equal to any in the country.

If press accounts from the capital are true, the Fulkerson pardon matter is about the rankest piece of maladministration that ever marred the record of Oklahoma. Attorney Sittenhouse testifies that he had asked Tom Waldrep to pardon Fulkerson in the event Waldrep should become acting governor. Senator Davidson testifies that Waldrep asked him to pardon Fulkerson. The record shows that Waldrep pardoned Fulkerson. Rittenhouse also testifies that he has employed Waldrep on several occasions to do legal work for him. All these parties may be misquoted in the press and Waldrep may not have been even a quasi attorney for Fulkerson, but the whole affair has an ugly look. At the very best Waldrep is guilty of an amazing indiscretion. At the worst Waldrep pardoned one of his own clients, presumably after receiving his retainer. At all events it is a most disgraceful affair.

Senator Harding says that he always writes editorials as he thinks. So many editors have the habit of writing without thinking.

At the Ada Playhouses

American
Today William Fox presents "Checkers," with an all-star cast. The story that put the race track on the stage. A smashing picture with hundreds of players and horses racing across the screen. A tremendous spectacle with thrill upon thrill from beginning to end. A Fox Special—nuff sed. Also showing Jack Dempsey in "Daredevil Jack."

Liberty.
P. T. Barnum, world's greatest showman is noted to have at one time made the assertion that "the American people liked to be humbugged." Maybe this is true of shows that move to and fro over the country playing one night stands, but this statement would conflict with the present show business, especially that of one which is permanently located. The people of this city demand a good show. The Liberty is doing it's best to play good clean shows, and present programs that are of the best. Today we present for your approval, Jimmie Allard and his U. S. A. Girls with singers, dancers and comedians. This show features the Harmony Quartet, which has proven very popular to Ada theatre goers. On the screen, Constance Talmadge, playing "In Search of a Sinner," has scored success in every theatre in the country. Special music is the feature of the program for today. The Liberty strives to please.

Mr. Spurgeon Johnson, representative of a McAlester wholesale house, was in Ada Wednesday and Thursday on business and visiting with Mrs. Mary D. Brunner and family.

Pluck.
Pluck wins! It always wins!
Though days be slow,
And nights be dark, 'twixt days
That come and go,
Still pluck will win; its average
is sure.
He gains the prize who can the
most endure.
Who faces issues, he who never
shirks—
Who waits and watches, and who
always works. —Anon.

Honoring Miss Ruth Brown.
Miss Bernice Roach of 523 South Townsend entertained with a slumber party Wednesday in honor of Miss Ruth Brown of Wewoka.
The time was spent in car riding, with ukelele music furnished by Bernice Roach, Zuma Horton, and Donabelle Lee, and piano music furnished by the musicians of the crowd, but, best of all was the midnight shower bath on the lawn and a feast consisting of sandwiches, punch, candy and fruit.
Those who enjoyed the good time were Ruth Brown, Margaret Anderson, Zuma Horton, Kathleen Smith, Donabelle Lee, Allys McLaughlin, Helen Moser, Agnes Hunt and Bernice Roach.

Constant-Burk.
Yesterday afternoon at 3:30 o'clock Mr. Harold Constant and Miss Della Burk were united in marriage at the home of the bride. The ceremony was performed by Rev. R. C. Taylor of the Methodist church.

The groom is the son of Mr. and Mrs. A. H. Constant. He has grown to young manhood in Ada. He attended both the normal and the high school here. He finished high school in 1916. He was 23 months in service during the late war and had 11 months' overseas service. Since returning from war service he has become a member of the Home Title & Guaranty company, with which company he is now working as an abstractor. His prospects are bright for success in the line he is following.

The bride is the daughter of Mr. and Mrs. E. A. Burk. She has lived in Ada only a few years but during that time has made many friends. She is a charming young lady and is deserving of the good wishes of those who know her.

The marriage was a pleasant surprise to both parents and friends. The young couple took the 4:20 Frisco for a honeymoon tour in the Ozark mountains. They will make their home in Ada.

Elks Dance.
Last night the Elks entertained their members and families with a dance. An orchestra furnished the music for the occasion and delicious refreshments were served during the evening. A good time was had by all present.

Personal Mention

Jack Banks and wife left this afternoon for the sights in Sulphur.

Nathan Pyle left today to visit with parents in Coalgate.

Dr. S. M. Richey and wife of Francis passed thru Ada yesterday on their way to Colorado.

Miss Willie Raye Dotson of Davis is visiting with the family of Roy Meeks on East 10th street.

Cecil Mallory recently made a trip to Sasakwa and at the last report was taking a short lay-off in Ada.

J. B. Gilbraith and wife have just returned from a several weeks' visit with his father in Clinton, Missouri.

Mr. and Mrs. L. D. Abney and child drove down from Oklahoma City yesterday to visit with J. O. and D. C. Abney.

Tom D. McKeown left yesterday for Oklahoma City to attend the funeral of Congressman Dick T. Morgan which will be held there today.

Mr. and Mrs. George Waggoner of Byars have been visiting in Ada with Mr. P. S. Canavan and family. Mrs. Canavan and little daughter accompanied them on their return home to Byars.

L. M. King and family, Bart Smith and family and Gale Statler and family left about 1:00 o'clock this afternoon in cars for an extended tour of the west. Some of the feature visits are planned in Colorado and Wyoming. The party will be gone six weeks or more.

Mrs. Jack Warmack is visiting relatives in Madrid.

A. K. Thornton and wife left over the Santa Fe this afternoon for Colorado where they expect to remain until the hot summer season is over.

The News is in receipt of a postcard from Rev. and Mrs. C. C. Morris and L. A. Ellison and wife, who left here Monday by automobile for a tour of Colorado and the north-west. The card was written Wednesday noon and mailed at Garden City, Kansas. It stated that they made 202 miles Monday, 178 Tuesday and 100 up to Wednesday noon and were having a splendid good time.

Mr. J. H. James and Mr. J. W. Gordon, who live near Union, Miss., and are visiting J. O. and D. C. Abney, are thinking of locating in the country. They are planters and stockmen.

Mrs. C. V. Dunn, who had her tonsils removed last Monday, is improving only gradually. She is still confined to her bed almost wholly. She is troubled also with mastoiditis.

Mr. Davis, Jess Edwards, John Satterfield and W. W. Reese of Allen were callers in Ada yesterday.

Our late shipment of the new style footwear for ladies now on display.—Burk's Style Shop. 7-9-2nd

E. J. Wilson of the Hawkeye Tire company is in Ada today looking after business interests.

This morning the electric wiremen working in front of the News made some kind of a misconnection, causing the insulation to burn from quite a strip of the wire. No serious damage was done.

METHODIST CHURCH — SUNDAY NIGHT

Here Is a Real Brew

Up in Wisconsin, in the heart of the barley district, where the water is pure and the air like wine, is made a *Brew* that will remind you so strongly of the good old fashioned days that you will be tickled to death when you drink it.

This *Brew* is so finely made—so carefully made—that if you will serve it to your friends and tell them it is the real thing left over from anti-prohibition days, they simply won't know the difference.

The same experts who have brewed Gund's Peerless since 1854, are brewing this *Brew*. They are following the same faultless process they have always followed and in the end, when all is done, they simply remove the alcohol required by law.

GUND'S Peerless BREW

But the alcohol is the only thing that is missing. It is the same rich, wholesome, pure food. It is still a blood and bone builder, and so far superior to the average drink that you ought to drink it yourself and give it to your children. It's a good drink—and a healthful drink. Everything that goes into the *Brew* is something that is good for you. The most finicky doctor couldn't find any objection to any of it.

It isn't a substitute. It's an original *Brew* of such fine character and taste that it is bound to become popular wherever it is tried. If you have any pre-conceived prejudice, or good natured contempt, get rid of it and give Gund's Peerless *Brew* a trial. It is dollars to doughnuts you'll like it. If you do, then you have found something worth while.

Light or dark in bottles or by the glass. In cases for home use, from your grocer, delicatessen store, or distributor.

THOUGHT THAT THE ALLIES WILL NOW COMPROMISE

By the Associated Press
SPA, Belgium, July 8.—A compromise with Germany on the time to be allowed her for disarmament, fixing the period at six months, looked to be probable outcome today of the conference among the allied delegates here. The Germans have asked for 15 months in which to disarm.
The conference will meet at 3:30 o'clock this afternoon, when, it is stated, the allies will make known to the Germans the final decision regarding the disarmament.

POLISH WOMEN NOW ENLISTING WITH THE ARMY

By the Associated Press
WARSAW, July 7.—Owing to the critical condition of the country, volunteers for active service in the army are offering themselves from every side. They include school and university teachers, students, boy scouts, civil service and ministerial employees, whose occupations excuse them from military service.
Stirred by the appeal of the national council of defense, for volunteers, hundreds of girls and women have taken the initial steps to join the army. Yesterday uniformed women and girls paraded the streets singing. The women's battalion will be used chiefly for guard duty in garrisons and as train escorts, thus relieving men for front line duty.

She is a Wise Woman who recognizes in the tell-tale symptoms such as backache, headaches, dragging sensations, nervousness and irritability the true cause and relies on Lydia E. Pinkham's Vegetable Compound to restore her to a healthy normal condition. For forty years this root and herb remedy has been pre-eminent successful in controlling the diseases of women. Merit alone could have stood such a test of time.

Thrown into or out of contact with the ground by a control arm in front of the driver, a caterpillar tread attachment for motor trucks has been invented by an Ohio man.

OHIO, WITH COX AND HARDING IS NOW WAR FRONT

SAN FRANCISCO, July 7.—Ohio, always a doubtful and important state in national elections, has assumed added importance this year because both parties chose as the presidential nominees men from the Buckeye state.
It is the first time since 1904 that a similar thing has occurred. That year Roosevelt and Parker, both from New York, were the nominees.
With Harding and Cox contending for honors in the nation, Ohio is certain to be hotly contested this fall.
The next president will be the sixth Ohioan to occupy the White House.

The two candidates are alike in many ways. Cox is now governor of Ohio. Harding was lieutenant governor. Both are newspaper owners and formerly both were practical newspaper men. Both have been in congress, Harding now being a member of the senate, while Cox was once in the house of representatives.
In temperament they are totally unlike. Harding has been frequently compared with William McKinley. He is of that even tempered, friendly sort that seldom makes enemies. Cox is an aggressive, active man, somewhat blunter on occasions than Harding, but able to use the arts of diplomacy or good politics.
Politically, Cox has been classed as a progressive, while Harding is known as a thoroughgoing stand-patter.

Burying beetles have a habit of digging a grave beneath small dead vertebrates.

Fifteen Years Ago

From the files of the News of July 9th, 1904, Ada, Indian Territory.

In the vice-presidential boom Senator Culberson of Texas is named, but declines the nomination.

Alton Brooks Parker nominated on first ballot for president of the United States. Hon. William Hearst is second in the ballot.

Mrs. W. T. Nolen and children left this morning for a visit in Boyton, Texas.

Miss Lillian Dawlings, after spending a few days with Miss Bell Brents, returned to her home in Sulphur.

Bruno Mayer, Dr. Davis and Elum Wolf went to Tishomingo Friday evening.

McAlester defeats Ada in ball game yesterday afternoon by a score of 2 to 1. Ada wins Saturday's game by score of 8 to 6.

The young folks sprang a surprise party on Mrs. Hutkinson last night. A good time was had with jokes on the hostess. An explosion of a lamp came near ending disaster.

C. E. Higgins visited in Shawnee today.

J. W. Drake has returned from a trip to north Texas. He states that crop conditions in that state are fine.

New in the farming implement line is a grain shocker that receives bundles of grain from a binder to which it is attached, ties several together and stands them on the ground with their butts well spread apart.

New Chemical Kills Bed Bugs P. D. Q.

P. D. Q. (Peaky Devils Quietness) is the name of a new golden colored chemical discovery by Dr. Price that actually kills the roaches, fleas, ants and their eggs. They don't have time to kick after you go after them with P. D. Q. A 50c package of P. D. Q. makes a quart of strong bug-killer, and goes farther than a barrel of Q. coats and kills their eggs and prevents the old fashioned dangerous dose. P. D. Q. is a patent spot in every batch. FREE a patent spot in every batch to enable you to get them in the hard-to-get-at places, and saves juice. P. D. Q. for family use 25c. Special Hospital and Hotel size \$2.50 makes 6 gallons, contains 3 spoons—your druggist can supply you, or sent prepaid to your address either size on receipt of price by the Owl Chemical Co., Terre Haute, Ind. P. D. Q. is never peddled.

Fish Fry.

John Jolly entertained a number of his friends with a fish fry on the Boggy creek last Saturday.

A good time was had by all present and many fish were caught. Aside from the feast of the fish, numerous eatables were in evidence which had a tendency to make the affair very successful.

Those present were: George B. Thompson and children, Mr. and Mrs. R. A. Harlin and family, Mrs. Jackson and family, Mrs. Stuart and family, H. I. Thompson and family, Mrs. Jennie Smith of Denison, Texas.

Hats cleaned and reblocked. Miller Bros. 6-5-1td

Work Starts for the Erection of Alfalfa Mill In This City

The Ada Alfalfa Milling company has started the excavation for their plant which is to be erected in the Industrial addition.

Workmen have been busily engaged this week on the foundation construction and the machinery and equipment will be installed as soon as the building is completed. This is another mark of industrial development and is an institution that will be very beneficial to this city as well as to the farmers and stockmen over the country.

The new enterprise is being promoted by R. W. Allen and C. W. Zorn, two well known Ada business men, who are supported by 30 substantial citizens of this section of the country. Mr. Allen recently made a trip to an eastern factory and has chosen the machinery that will be installed in the plant. It is expected that they will have the plant in operation by September.

WAS GOING TO RAIN
"PITCH-FORKS AND
NIGGER BABIES" THIS
MORNING. THE SENIORS
AND "Y" GIRLS MAY
GET TO MAKE THEIR
PICNIC TRIPS IN
BOATS THIS AFTERNOON.
"SLIM" MISSED THAT
SHOW DOWN AT THE GYM
BUILDING THIS MORNING,
BUT WILL BE ON THE
SCENE FROM THIS DATE.
ANYTHING REAL
SENSATIONAL ALWAYS
PLEASES HIM. WHY NOT
HAVE SPECIAL MEETING
OF THE "HAS BEENS?"
—SLIM

The "Old Man" left for his home in the North Pole this morning and stated that he enjoyed his visit with us very much and promised to come back soon.

Many teachers are withdrawing and are accepting positions in the rural schools over the country. The rural schools are establishing a summer school and many are taking advantage of the opportunity thus afforded.

Pontotoc county teachers have issued challenges to other county organizations to play them a game of basket ball. Pontotoc county has teams of boys and girls and we expect to see some good games in the next few days. Why not let Seminole county try them?

Basket Ball Players
All girls of Pontotoc county who wish to try for the basket ball team should place their application with the secretary at once. The regular try-out will start in a few days.

The "Y" Girls
This afternoon the Y. W. C. A. girls will go on a picnic party to Jack Fork, that is if the weather permits. They will make the trip in trucks and will carry along a good supply of eats and water-melons. A good time is assured those who attend.

The girl students of the Normal are going to the ball-game this afternoon and state that they

To have developed a rare, wondrous odor, at a cost of thousands of dollars; and then to be able to sell it in a beautiful package of talcum at a price within every woman's means is the supreme achievement of the makers of Jonteel, the New Odor of twenty-six Flowers. Try Jonteel today.

Mother,
may I go
in to swim?

Today we feature for your pleasure a line of Men's Bathing Suits that ask no mercy or odds of Neptune.

They were made for the purpose after which they were named and you can put one on with the comforting assurance that it will bring you home without a blush or a barrel. They are non-shrinkable. The sizes run from 34 to 46, but the colors won't. When you see them you'll like them and we'd like you to see them.

had for their visitors Misses Carrie Roach and Ophelia Gray, seniors of last term. Miss Gray assisted Miss Anna Weaver Jones in instruction in drills and was noted to have done some "stunt" dancing for the entertainment of the class.

Auto Thieves Are Admitted to Bail In Justice Court

Mack D. Lewis and Huber James were arraigned before Justice Brown yesterday on a charge of stealing an automobile and were admitted to bail in the sum of \$2,000 each. They were represented by Joe S. Ratliff of Tishomingo.

The defendants are young Indian men and are said to live at Troy. They are accused of having stolen an automobile belonging to E. C. Peay at the picnic grounds at the city lake Monday night and driving the car to Madill where they were arrested Wednesday.

Notice Gas Consumers

Your card reads: "BILLS PAYABLE AT THE OFFICE BY THE 10th. Service will be discontinued by the 15th without further notice. Should gas be cut off for NON-PAYMENT, a charge of \$1.00 may be made for re-connection."

We sincerely hope that the service will not need to be interrupted with because of non-payment of your gas bill. Several unpleasantnesses were incurred last month for this reason, however, it was no fault of ours. Please then, co-operate with us by paying your gas bill promptly, thereby saving yourself this inconvenience and the additional cost.

The gas office will remain open SATURDAY EVENING, June 10th, until 7:30.

Hear Ye! Hear Ye!
The seniors will leave this afternoon for a picnic at Byrd's Mill. The party will meet at the normal at 6 and leave for the scene of

activities at a few minutes later. In case of a rain they will meet at the gym building at 5 o'clock and spread the lunch and cut the watermelons. Aside from the feast,

they will spend the evening in such entertainment that the occasion demands.

Iceland has about 100 geysers.

The girl students of the Normal are going to the ball-game this afternoon and state that they

High Ideals, Master Engineering, Volume Prices and last but not least Satisfied Users have made the Nash Perfected Valve-In-Head Motor the most talked of Car on the market.
